To whom it may concern,

TESTIMONIAL

Andrew offered to help install the new ISO 9001:2015 Standard in March 16 into our small Technical Solutions Company which previously did not have an externally certificated Management Standard in place. Andrew was able to help the staff develop the necessary procedures, forms and process diagrams which were essential in formalising the way we did business. He has been able to use his great experience in his world-wide auditing activities to the full benefit of the organisation. We have just completed the 2nd stage audit and received no non-conformances and we are looking forward to receiving our certificate in a few days' time.

In addition, we are now using Andrew to progress through to the aerospace Standard, AS 9100, the IT Standard ISO 27001, the Environmental Standard ISO 14001 and preparing for the implementation of the new Health & Safety Standard, 45001 at the end of 2017.

Andrew was a very punctual and flexible person who ensured that the management system being put in place suited the requirements of our organisation and was able to fit in around the normal work being carried out. Indeed, his experience showed through at each stage and he fitted in with the established team very well. I would recommend Andrew to any Company who is interested in using his consultancy services.

Yours Sincerely,

A handwritten signature in blue ink, appearing to be "Graham May", with a long horizontal stroke extending to the right.

Mr Graham May
Managing Director
Maytek Solutions Ltd
